Information about this Directory:

Information included in this directory is accurate, to the best of our knowledge, as of the date of the most recent update. Providers who are approved will be added to the Directory of Participating Providers in a consistent manner with information obtained during the credentialing process during the next scheduled directory update. Our provider directories are updated at least monthly, when informed of and upon confirmation that the provider's demographic information has changed.

Covered persons, or prospective covered persons, should consult our electronic provider directory on our website or call (888) 400-9304 to obtain current provider directory information. Participation by providers listed in this directory is not guaranteed and may be subject to change as the listing is updated. Please confirm with your provider that they are currently participating in the network before you schedule or receive care.

Please notify us of any inaccuracies by calling (888) 400-9304 or emailing VisionDirectory@Unum.com or DentalDirectory@Unum.com.

Available in Print:

A non-electronic copy of the provider directory may be obtained free of charge. Please contact (888) 400-9304 to request a copy.

Access to In-Network Providers

Because we do business across many different jurisdictions and because state and/or federal regulations generally require network accessibility standards specific to a certain jurisdiction and/or line of business, we do not have a single set of network accessibility standards. Rather, we adopt the accessibility standards applicable to each of the jurisdictions and lines of business it manages to meet the needs of its clients and recruits its providers in order to meet the accessibility needs of those

clients. A copy of our Network Access Plan is available upon request. If there are no participating providers in your area, please contact us for assistance. Members may seek covered services from an in-network or out-of-network provider without preauthorization or referral.

Building a Network for YOU

When building our provider network, we consider a provider's ability to meet the access needs of our Members and our credentialing standards. Our network of participating providers has been rigorously reviewed for competency and contracted to follow specified guidelines, including meeting standards of care, meeting rules and regulations of their jurisdiction, and complying with HIPAA. Providers are welcome to join our network if they agree to the participation terms in the contract and meet our provider credentialing standards. Each provider must meet credentialing standards prior to network participation and maintain those same standards for continued participation. The credentialing process helps ensure each provider possesses the professional credentials, including licensing, experience, and training, to provide you with quality care. Providers who are approved are added to the Directory of Participating Providers in a consistent manner with information obtained during the credentialing process during the next scheduled directory update.

Vision: Our plans utilize the First Look Vision Network and includes independent optometrists, ophthalmologists, opticals and retail stores like Walmart Vision Center, America's Best Contacts & Eyeglasses, and Target Optical.

Dental: Our dental network is comprised of both our own proprietary dental network and leased network arrangements (Plus). Plus is a network arrangement managed by DenteMax and includes participating providers from the DenteMax, Careington, United Concordia, Maverest (Zelis) Dental Network, Connection Dental and Premier Dental Group (PDG). It does not include Unum Dental underwritten by United Concordia.
